Welcome to Education in Ireland!

According to the IMD World Competitiveness yearbook of 2007 the education system in Ireland is one of the best in the world, a fact which stands out as the major contributing factor to the rapid economic growth Ireland has experienced over the last two decades.

Ireland has a growing and distinct community of over 1,000 Indian students, where they study, work and play in a safe and welcoming environment. Irish Higher Education Institutes recognize Indian degrees for direct entry into their courses.

I wish you every success in finding a course suited to your needs in Ireland!

Enterprise Ireland is the government agency responsible for the development and promotion of the indigenous business sector. Our mission is to accelerate the development of world-class Irish companies to achieve strong positions in global markets resulting in increased national and regional prosperity.

Through our extensive network of 13 Irish offices and 32 international offices, we work with our clients to assist them to compete and to grow.

Our key focus, for Irish companies is covered under the following five areas of activity :

- Achieving export sales
- Investing in research and innovation
- Competing through productivity
- Starting up & scaling up
- Driving regional enterprise

We also provide assistance for international companies who are searching for world-class Irish suppliers and we can help international companies who want to set up food and drink manufacturing operations in Ireland.

Education Ireland is an agency established by the Irish Government to promote Ireland as a quality destination for international education. It acts as a central point of contact for information on Irish education and on programmes available in Irish universities and colleges and provides advice on Irish education to overseas students, agencies and institutions. It facilitates Irish education institutions in promoting their programmes internationally and works with the educational institutions and other Irish agencies to continually improve the quality of the overall Irish offering (including application procedures, visa processes, studying, living and working in Ireland). In its promotional work in India it works in association with Enterprise Ireland.
